Description

It's impossible to delete existing Wishlist regardless of the way it was created (adding goods to it from the main directory or manually creating it in My Account\My Wishlists).

Steps to reproduce:

1. Open site: <http://prestashop.qatestlab.com.ua/en/>
2. Open section Women
3. Add some items to Wishlist
4. Click My Account, choose section My Wishlists

Expected result:

When we open section "My Wishlists" we can see the list of the Wishlists in the form of a table. When we want to delete any (unnecessary or out of date) wishlist, we click active link "X" in the "Delete" column and selected Wishlist disappears from the list (table).

Actual result:

We open "My Wishlists". Try to delete our existing wishlist by clicking active link "X" in the "Delete" column, but nothing happens.
